Objective

Observational Physicist working as a final year PhD researcher. Looking forward in gaining more experience as part of a team.

Experience

- Maynooth University** 2022 - Present
Tutoring and Demonstration
Experience in tutoring and conducting lab demonstrations for physics undergraduates
- Indian Institute of Astrophysics** 2021 - 2022
Project Intern
Worked as project Intern remotely at IIA, Bangalore on the site characteristics of Indian Institute of Astronomical Observatory.
- Indira Gandhi Centre for Atomic Research** 2020 - 2020
Project Intern
Worked on a project based on atomic physics

Education

- Maynooth University** 2022-Present
PhD in Experimental Physics
- University of Kerala** 2020
MSc. Physics
- University of Kerala** 2018
BSc in Physics

Skills

- Programming: Python, C++,C
- Operating Systems: Linux, Windows
- Data Analysis
- Statistics
- Physics Education
- Computer skills
- Teaching
- Lab Demonstrations
- LaTeX
- Astrophysics
- Communication
- Critical Thinking
- Writing

Projects

- Star Formation**
On going research done on the underlying processes of star formation, specifically on pre-main sequence outflows based in Python
- Site characteristics of IIAO, India**
Study on the site characteristics of the astronomical observatory, Ladakh, India. Study is based on Python Language
- Luminescence Study on Sodium Barium Diphosphate**
Photoluminescence and Optically Stimulated Luminescence study on Europium doped Phosphor.
